Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Executive Summary

The Survey of Labour and Income Dynamics (SLID) conducts two annual interviews: the Labour interview in January and the Income interview in May. The data are collected using computer-assisted interviewing. Thus there are no paper questionnaires required for data collection. The questions, responses and interview flow for Labour and Income are documented in other SLID research papers. This document presents the information for the Entry Exit portion of the Labour and the Income interviews.

The Entry Exit Component consists of five separate modules. The Entry module is the first set of data collected. It is information collected to update household composition and place of residence. For each person identified in Entry, the Demographics module collects (or updates) the person's name, date of birth, sex and marital status. Then the Relationships module identifies (or updates) the relationship between each respondent and every other household member. Relationship data is not collected in the May Income interview. The Exit module includes questions on who to contact for the next interview and the names, phone numbers and addresses of two contacts to be used only if future tracing of respondents is required. An overview of the Tracing Module is also included in this document.

1. Introduction

Each January, the Labour interview for the Survey of Labour and Income Dynamics (SLID) is conducted. Then, in May, SLID income data are collected. Both use computer-assisted interviewing (CAI) for data collection.

For the SLID 2003 collection, Panel 3 was in its fourth year of collection. Panel 4, selected from the December 2001 and January 2002 rotation groups of the Labour Force Survey (LFS), was introduced. Both panels consisted of approximately 37,000 households and 88,000 people.

In Appendix 2, figures 1 and 2 present an overview of the flow of the January interview and the flow of the Entry Exit Component for Labour, respectively. Figures 3 and 4 present an overview of the flow of the May interview and the flow of the Entry Exit Component for income, respectively.

The ENTRY module collects/updates information on household members. For each household member listed at the last interview, the interviewer asks whether he/she is still a household member. For those who are not, information is collected on when the person moved out, the reason for leaving, and the new address and telephone number. If the entire household has moved, information on telephone number and address is updated. Finally, the interviewer asks if there are any new household members. If so, the interviewer first checks whether the new person is a "ghost" (those persons who used to belong to the household but who moved out and may have returned at this contact). A list of former household members (ghosts) is provided from the previous SLID interview for each household. If the person is not on this list, their name is added to the household roster. These new persons are joiners. The date when the person joined the household is asked as well as the person's previous province of residence.

For May, the ENTRY module collects/updates information on household members. Cohabitants (new members or joiners) identified in the January interview appear on the household member list and are eligible for the Income interview. New cohabitants are identified during the May 2003 interview but will be interviewed for Labour in January 2004 and for Income in May 2004. Former

household members who returned to the household in May are eligible for the Income interview. If the entire household has moved, it will be traced.

The DEMOGRAPHICS module collects or updates the date of birth, sex and marital status of each household member.

The RELATIONSHIPS module, which is only collected in January, identifies or updates the relationship between each household member and every other household member.

Most surveys which contain household and family variables construct family relationships in relation to a household reference person or "head". For example, a family composed of a husband, wife and two children might use either the husband or the wife as the reference person. We would end up with relationships of head, spouse, and children. By collecting family relationships based on a reference person we lose detailed information about family relationships.

SLID collects an expanded set of demographic data by asking, each year, the relationship of every household member to every other household member, rather than by the traditional method of relating everyone to one reference person. The objective of this relationship approach is to collect data that reflect the changes that have taken place in family relationships over a six year period. As well, in a longitudinal survey, this approach avoids the need to re-ask relationships if the reference person leaves the household.

The EXIT module confirms the household contact name for the next interview and asks whether the household is planning a future move. If so the new address is recorded. The names, phone numbers and addresses of two friends or relatives, who may be contacted if future tracing of respondents is required, is also collected.

Cases will be sent to the TRACING component as a result of the answers given to certain questions in the Entry module.

This research paper presents the content of the ENTRY EXIT component[1] including question wording, possible responses, and flows of questions.

2. How the application works

Standard Question Blocks:

The document "Standard Question Blocks for Social Survey CAI Applications" provides the basic specifications and documentation for standard Entry and Exit questions that are available for use by all surveys. These questions are grouped into "blocks" and each block is programmed individually. The blocks include pre-defined question text and response categories that cannot be changed. Survey areas may select the blocks that they wish to include in their Entry and Exit components.

The following blocks are also called in the SLID Entry and Exit components (see Appendix 1):

Address Questions:

The Address block includes all the necessary question and interviewer instruction text necessary to gather a complete Canadian or US address. Addresses outside Canada and the US can also be gathered, but some information may have to entered in fields not designed for collection of that information, e.g., the name of a country might be entered in the same field as the municipality.

Date Questions:

The date block has been programmed with full date information collected as three separate fields (in day / month / year order). This allows "Don't Know" and "Refusal" to be entered for any or all of the fields, and also allows those fields containing numeric data to be validated. Naturally, only if all three of the fields contain numeric data will it be possible to validate them together.

It is possible to validate the entered date against other information, specifically a reference date. Survey areas must provide the reference date, and then a hard edit checking for consistency between the entered date and the reference date will be performed. If a reference date is not provided, the edit will not be performed.

[1] The Labour and Income questions are presented in other SLID research papers.

Telephone Number:
Two standard blocks have been programmed to collect a telephone number. The North American Telephone block gathers a 10-digit telephone number in two pieces, consisting of a three-digit area code and a seven-digit phone number. Validation of the area code field takes place before the seven-digit telephone number is collected, using a soft confirmation edit.

3. What's new

LABOUR INTERVIEW

New questions:
OR_Q005, OR_Q010, OR_N010S, OR_Q015, OR_Q020, OW_Q005, OW_Q010, OW_Q015, OW_N015S, OW_Q020, OW_Q025, OW_Q030, OW_Q035, OW_Q040, OW_Q045, OW_Q050, OW_Q055, RN_Q001, RN_Q005, RN_Q010, RN_Q015, RN_Q020, RN_Q025
In 2003 SLID started to collect housing information on an annual basis. Information about the adequacy of the housing and rental stock is collected to determine if the housing and rental stock is in a good state of repair. Information on the suitability of housing is also collected. Suitable housing has a sufficient number of bedrooms, given the household size and household composition (e.g., married couples, single adults, children). Last but not least, information on the affordability of housing is collected. The benchmark was that household shelter costs should be less than 30% of pre-tax household income. Shelter costs include mortgage payments, property taxes, condominium fees (for owners); rent (for renters); and utility costs (water and sewage charges; heating fuel; electricity) for both owners and renters.

Modifications:
DW_Q01 (Dwelling Type)
If a respondent reports that the type of dwelling they live in is an "institution", the interview will end for this household as it is considered "out of scope" for SLID purposes.

RL_Q01 (Reason Left)

This question will now only be asked if there has been an address change which is the result of a move (MAM_Q01 = Yes). When a household is sent to tracing the moveflg is set to 1. If the household was traced and we found that the phone number had changed but the address had not, the members were still getting the question "Why did you move from...". Now they will only get this question if the hhinfo.hmoveflg is 1 and the address has changed.

Type of Institution

SLID does not require the type of institution information so this question has been removed from the application.

TRA_Q04

SLID does not interview respondents overseas so the Overseas Telephone question is not asked.

INCOME INTERVIEW

New questions:

No new questions have been added to the Entry Exit component since the January 2003 Labour interview.

Modifications:

The Entry Exit components for both Labour and Income are generic. Certain questions are not asked during the May Income collection. The asking of these questions is based on "Phaseid" logic written into the application (Phaseid = 1 for Labour; Phaseid = 2 for Income). The following blocks are not called for Income: Dwelling Type, Bedrooms, Owners & Renters, Tenure, Mortgage, Owners, Renters and Relationships.

Reason Moved and Reason Left Blocks

There was a wording change, in French only, to categories 04 (Institutionalized for less than 6 months) and 05 (Institutionalized for 6 months or more). The English and French questions did not have the same meaning for these two categories. The word "depuis" was replaced with the word "pour".

Age with Confirmation Block

New logic (AWC_C02) was added to the Age with Confirmation block so that the age for babies, born during the collection year, will be set to 0 and we will no longer ask to confirm their age.

Future Contact Block

Phaseid logic was added to the Future Contact block to accommodate the final wave of a panel. This brings the rest of the application in line with the generic approach for the Entry Exit Components for Labour and Income.

Phaseid logic was added to the Thank You block to accommodate the final wave of a panel. This brings the rest of the application in line with the generic approach for the Entry Exit Components for Labour and Income.

4. How to read this document

Text in **bold** letters is read, as worded, by the interviewer. Instructions for the interviewer are preceded by the word "INTERVIEWER" and are not read out loud to the respondent. The options "Refuse" (R) and "Don't know" (DK) are allowed on every question unless otherwise stated. However, the response categories are shown in this document only when the flow from these responses is not to the next question.

Question numbers

For each section, the question numbers refer to the actual numbers used in the programmed application which appear on the interviewer's computer screen.

Naming conventions

Naming conventions conform to the standards for Statistics Canada social surveys.

Questions with:
- Q (e.g. SL_Q01) = question text read to a respondent
- C (e.g. JOI_C01) = internal check
- N (e.g. CN_N02) = interviewer instruction
- E (e.g. AWC_E05) = edit message

Pre-fill items

These are items specific to each respondent's interview. The software adds the relevant information into the question, making the interviewer's job easier. Prefill items (shown in square brackets [ ]) include:

["English"/"French"/"Other"] - This is the language in which the previous interview was conducted.

[Does[respondent name]/Do any of the following people] - If there is only one respondnet living in the houshold, the first wording is used for the question and the appropriate respondent name is pre-filled. If there is more than one respondent living in the household, the second wording is used for the question and the list of members appears below the question text.

[respondent name] - This is the first and last name of the person to whom the question refers. This is not necessarily the person who is talking to the interviewer.

[month of birth], [day of birth], [year of birth] - This is the date of birth information recorded in the first interview with each respondent and confirmed in each subsequent interview. It is used to calculate the household member's age.

[calculated age] - Calculated from the reported date of birth, it is used to verify the date of birth information.

[reference date] – A predetermined date that is prefilled in the question text.

[reference year] - This is the year for which the information is collected (2002).

[marital status] - The reported value, used in subsequent questions to identify dates of changes in marital status.

[address] - For persons reporting a move, this is the previous address of residence.

[mailing address] - The mailing address obtained during the previous interview.

[province or territory] - This is the province or territory which is derived from the postal code reported.

[telephone number] – The telephone number obtained during the previous interview.

[month and year] - This is the period of the next interview, May of the current year (for the Income interview) if tax permission is not given, and January of the current year + 1 (for the next Labour interview) if tax permission is given.

Headers

For some question groups in CAI, important information is noted at the top of the screen. This information is given at the beginning of each section description.

Ranges

Hard Ranges of acceptable responses are specified for some of the questions. For example, in JOI_Q04 (when moved in) a hard range minimum of " January 1, [reference year]" exists. If the interviewer tries to enter a date earlier than this, the system will not accept it.

Dates

All dates are entered by number in boxes, using the dd/mm/yyyy format. "Refusal" and "Don't know" are also acceptable responses.

Outcome Codes

The Outcome Code is a two-digit code which indicates the result of a contact or attempted contact with a household during the conduct of a survey. The codes are grouped into "In Progress" and "Final" and some of the same outcome codes may appear on both lists.

Action Codes

An Action Code is assigned for 'refusal' cases only. It is a one-digit code which indicates the action to be taken for the next collection. Only a Senior interviewer or a PM has the authority to assign these codes.

2 Attempt to interview - respondent contacted

3 Do not interview again unless complete change in household membership
4 Do not interview again under any circumstances
5 Retain in RO
(Refuse, Don't know are not allowed)

END_BLOCK

9. Tracing component

Cases will be sent to the Tracing group as a result of the answers given to certain questions in the Entry module.

Tracing required for household
A household will be sent to tracing if the interviewer is unable to make contact with the respondents after several tries or when someone tells them the household has moved.

If, after many attempts, the answer to CN_N02 (Have you made contact?) is 'No' and the interviewer assigns an in-progress code of 30 (tracing required), the case will be sent to the Tracing group with the original sample identification number.

If the answer to SL_Q01 (Do any of the following people still live or stay in this household?) is 'No', the system automatically assigns an in-progress code of 30 (tracing required) and the case is sent to the Tracing group with the original sample identification number.

Tracing required for mover(s)
Each time one or more, but not all, household members move from a household, a new household containing these movers is created.

If the answer to PE_Q01 (Do the following people still live or stay in this household?) is 'No' for one or more household members, the reason for the move, the date of the move, the telephone number and address of the mover, and any other pertinent information will be asked. Once the application has exited the Entry component (i.e. all demographic and relationship information for the remaining members has been collected), a new household with a new sample identification number will be generaged for the member(s) who have left and will automatically be sent to the Tracing group by the system.

All persons who have moved out of the household are moved together to form a case for tracing. During later contact with those members, it will be determined if they all live in one household or if additional households (cases) need to be created.

Each case will contain the following information

The original Case ID, phone number and address will appear at the top of the screen in the case of a household move. For movers in a newly created household, the new Case ID, previous address and previous phone number will appear.

A Members list will contain the name(s) of the new household member(s) with the old household members appearing as ghosts. Demographic information will also appear for all members (age, sex, marital status and member status).

Trace Sources are listed which contain the contact names and addresses collected during previous interviews, along with other trace sources which were added during tracing in previous years. The most recent source for movers, prev hhld, consists of the tracing information collected in the Entry module of the recent interview with the last household. Interviewers may also add new trace sources resulting from information obtained either through one of the other sources or through new research (i.e. local operator, post office, phone book, etc.).

A tracing interview is conducted with questions designed to lead the interviewer through an interview with the source or possibly the respondent. The results of the interview will be assigned automatically and will be one of five: Dead end; New lead; Appointment; Call back required; or Survey which will load the SLID application so that the interview can be completed.

10. Edits

RM_Q01:
If the feedback age of the longitudinal respondent is less than 16 and "Change in marital status (got married/separated)" is selected as the reason the respondent moved, pop up a soft edit with the following text: "The category 'Change in marital status (got married/separated)' has been selected for a household member less than 16 years old. Please confirm."

If the feedback age of the longitudinal respondent is less than 15 and "Job-related reasons" is selected as the reason the respondent moved, pop up a soft edit with the following text: "The category 'Job-related reasons' has been selected for a household member less than 15 years old. Please confirm."

If the feedback age of the longitudinal respondent is 19 or more and "Joint custody to live with other parent" is selected as the reason the respondent moved, pop up a soft edit with the following text: "The category 'Joint custody to live with other parent' has been selected for a household member 19 years of age or older. Please confirm."

If the feedback age of the longitudinal respondent is less than 15 and "Personal study-related reason" is selected as the reason the respondent moved, pop up a

soft edit with the following text: "The category 'Personal study-related reason' has been selected for a household member less than 15 years old. Please confirm."

If the feedback age of the longitudinal respondent is 18 or more and "In foster care" is selected as the reason the respondent moved, pop up a soft edit with the following text: "The category 'In foster care' has been selected for a household member 18 years of age or older. Please confirm."

RL_Q01:
If the feedback age of the longitudinal respondent is less than 16 and "Change in marital status (got married/separated)" is selected as the reason the respondent moved, pop up a soft edit with the following text: "The category 'Change in marital status (got married/separated)' has been selected for a household member less than 16 years old. Please confirm."

If the feedback age of the longitudinal respondent is less than 15 and "Job-related reasons" is selected as the reason the respondent moved, pop up a soft edit with the following text: "The category 'Job-related reasons' has been selected for a household member less than 15 years old. Please confirm"

If the feedback age of the longitudinal respondent is 18 or more and "In foster care" is selected as the reason the respondent moved, pop up a soft edit with the following text: "The category 'In foster care' has been selected for a household member 18 years of age or older. Please confirm."

MOV_Q01:
If a date for the last response interview is available from the survey's sample file and the date entered is before that date, pop up a hard edit with the following text: "Date cannot be before [last response interview date]. Please return and correct."

If a reference date is available from the survey's sample file (or the current/system date is the reference date) and the date entered is after that date, pop up a hard edit with the following text: "Date cannot be after [reference date]. Please return and correct."

"Ghost" roster PE_Q01 and PE_Q02:
If the first name is updated in PE_Q01, pop up a soft edit with the following text: "This is a ghost member. Are you sure you want to change the first name? If adding a new member, go back and enter the name on the next blank line."

If the last name is updated in PE_Q02, pop up a soft edit with the following text: " This is a ghost member. Are you sure you want to change the last name? If adding a new member, go back and enter the name on the next blank line."

If both first name and last name is updated in PE_Q01 & PE_Q02, pop up a hard edit with the following text: "Both the first and last name of a ghost member cannot be changed. If adding a new member, go back and enter the name on the next blank line."

"Other" roster PE_Q01 and PE_Q02 :
If no names are entered, pop up a hard edit with the following text: "No names were entered. Return to the roster and enter at least one name, or return to RS_Q05 and change the answer to 'No'."

JOI_Q04:
If the date entered is after the current system date, pop up a hard edit with the following text: "Date cannot be after [current system date]. Please return and correct."

AWC_Q02:
If the entered year is more than 130 years before the current year, pop up a hard edit with the following text: "Year cannot be before [current year - 130]. Please return and correct."

If the date entered is after the current system date, pop up a hard edit with the following text: "Date cannot be after [current system date]. Please return and correct."

AWC_Q03:
If the response is 2 "No, return and correct date of birth", pop up a hard edit with the following text: "Return to AWC_Q02 and correct the date of birth."

MSC_Q01:
If the date entered is before January 1, [reference year], pop up a hard edit with the following text: "Date cannot be before Janauary 1, [reference year]. Please return and correct."

If the date entered is after the current system date, pop up a hard edit with the following text: "Date cannot be after [current system date]. Please return and correct."

RNC_Q01:
If the age of one or both of the respondents is less than 16 and "Husband/Wife" is selected as the relationship, pop up a soft edit with the following text: "The category "Husband/Wife" has been selected for a household member less than 16 years old. Please confirm."

If the sex of the two respondents is the same and "Husband/Wife" is selected as the relationship, pop up a hard edit with the following text: "The category "Husband/Wife" cannot be selected for household members with the same sex. Please return and correct."

If the marital status of one or both of the respondents is not "Married" and "Husband/Wife" is selected as the relationship, pop up a soft edit with the following text: "The category "Husband/Wife" has been selected for household members who are not married. Please confirm."

If the age of one or both of the respondents is less than 16 and "Common-law partner" is selected as the relationship, pop up a soft edit with the following text: "The category "Common-law partner" has been selected for a household member less than 16 years old. Please confirm."

If the sex of the two respondents is the same and "Common-law partner" is selected as the relationship, pop up a soft edit with the following text: "The category "Common-law partner" has been selected for household members with the same sex. Please confirm."

If the marital status of one or both of the respondents is not "Living common-law" and "Common-law partner" is selected as the relationship, pop up a soft edit with the following text: "The category "Common-law partner" has been selected for household members who are not living common-law. Please confirm."

If the age of the primary respondent (i.e. the first person in the question) is less than 12 and "Father/Mother" is selected as the relationship, pop up a soft edit with the following text: "The category "Father/Mother" has been selected. [Primary respondent name] is less than 12 years old. Please confirm."

If the age of the secondary respondent (i.e. the second person in the question) is less than 12 and "Son/Daughter" is selected as the relationship, pop up a soft edit with the following text: "The category "Son/Daughter" has been selected. [Secondary respondent name] is less than 12 years old. Please confirm."

If the age of the primary respondent (i.e. the first person in the question) and the age of the secondary respondent (i.e. the second person in the question) are different by more than 34 years and "Brother/Sister" is selected as the

relationship, pop up a soft edit with the following text: "The category "Brother/Sister" has been selected for household members different in age by more than 34 years. Please confirm."

If the age of the primary respondent (i.e. the first person in the question) is less than 18 and "Foster father/mother" is selected as the relationship, pop up a hard edit with the following text: "The category "Foster father/mother" cannot be selected. [Primary respondent name] is less than 18 years old. Please return and correct."

If the age of the secondary respondent (i.e. the second person in the question) is more than 17 and "Foster father/mother" is selected as the relationship, pop up a hard edit with the following text: "The category "Foster father/mother" cannot be selected. [Secondary respondent name] is more than 17 years old. Please return and correct."

If the age of the primary respondent (i.e. the first person in the question) is more than 17 and "Foster son/daughter" is selected as the relationship, pop up a hard edit with the following text: "The category "Foster son/daughter" cannot be selected. [Primary respondent name] is more than 17 years old. Please return and correct."

If the age of the secondary respondent (i.e. the second person in the question) is less than 18 and "Foster son/daughter" is selected as the relationship, pop up a hard edit with the following text: "The category "Foster son/daughter" cannot be selected. [Secondary respondent name] is less than 18 years old. Please return and correct."

If the age of the primary respondent (i.e. the first person in the question) is less than 24 and "Grand father/mother" is selected as the relationship, pop up a soft edit with the following text: "The category "Grandfather/mother" has been selected. [Primary respondent name] is less than 24 years old. Please confirm."

If the age of the primary respondent (i.e. the first person in the question) is less than the age of the secondary respondent (i.e. the second person in the question) and "Grand father/mother" is selected as the relationship, pop up a soft edit with the following text: "The category "Grandfather/mother" has been selected. [Primary respondent name] is younger than [secondary respondent name]. Please confirm."

If the age of the primary respondent (i.e. the first person in the question) and the age of the secondary respondent (i.e. the second person in the question) are different by less than 25 years and "Grand father/mother" is selected as the relationship, pop up a soft edit with the following text: "The category "Grand[father/mother" has been selected for household members different in age by less than 25 years. Please confirm."

If the age of the secondary respondent (i.e. the second person in the question) is less than 24 and "Grand son/daughter" is selected as the relationship, pop up a soft edit with the following text: "The category "Grandson/daughter" has been selected. [Secondary respondent name] is less than 24 years old. Please confirm."

If the age of the secondary respondent (i.e. the second person in the question) is less than the age of the primary respondent (i.e. the first person in the question) and "Grand son/daughter" is selected as the relationship, pop up a soft edit with the following text: "The category "Grandson/daughter" has been selected. [Secondary respondent name] is younger than [primary respondent name]. Please confirm."

If the age of the primary respondent (i.e. the first person in the question) and the age of the secondary respondent (i.e. the second person in the question) are different by less than 25 years and "Grand son/daughter" is selected as the relationship, pop up a soft edit with the following text: "The category "Grandson/daughter" has been selected for household members different in age by less than 25 years. Please confirm."

RNC_Q2A:
If the age of the primary respondent (i.e. the first person in the question) is less than the age of the secondary respondent (i.e. the second person in the question) and "Birth father/mother" is selected as the relationship, pop up a hard edit with the following text: "The category "Birthfather/mother" has been selected. [Primary respondent name] is younger than [secondary respondent name]. Please return and correct."

If the age of the primary respondent (i.e. the first person in the question) is less than 15 years more than the age of the secondary respondent (i.e., the second person in the question) and "Birth father/mother" is selected as the relationship, pop up a soft edit with the following text: "The category "Birth father/mother" has been selected for household members different in age by less than 15 years. Please confirm."

If the sex of the primary respondent (i.e. the first person in the question) is "Female" and the age of the primary respondent is more than 50 years more than the age of the secondary respondent (i.e. the second person in the question) and "Birth father/mother" is selected as the relationship, pop up a soft edit with the following text: "The category "Birth father/mother" has been selected for household members different in age by more than 50 years. Please confirm."

If the age of the primary respondent (i.e. the first person in the question) is less than 15 and "Step father/mother" is selected as the relationship, pop up a soft edit with the following text: "The category "Step father/mother" has been selected. [Primary respondent name] is less than 15 years old. Please confirm."

If the age of the primary respondent (i.e. the first person in the question) is less than 18 and "Adoptive father/mother" is selected as the relationship, pop up a hard edit with the following text: "The category "Adoptive father/mother" cannot be selected. [Primary respondent name] is less than 18 years old. Please return and correct."

RNC_Q2B:
If the age of the secondary respondent (i.e. the second person in the question) is less than the age of the primary respondent (i.e. the first person in the question) and "Birth son/daughter" is selected as the relationship, pop up a hard edit with the following text: "The category "Birth son/daughter" has been selected. [Secondary respondent name] is younger than [primary respondent name]. Please return and correct."

If the age of the secondary respondent (i.e. the second person in the question) is less than 15 years more than the age of the primary respondent (i.e., the first person in the question) and "Birth son/daughter" is selected as the relationship, pop up a soft edit with the following text: "The category "Birth son/daughter" has been selected for household members different in age by less than 15 years. Please confirm."

If the sex of the secondary respondent (i.e. the second person in the question) is "Female" and the age of the secondary respondent is more than 50 years more than the age of the primary respondent (i.e. the first person in the question) and "Birth son/daughter" is selected as the relationship, pop up a soft edit with the following text: "The category "Birth son/daughter" has been selected for household members different in age by more than 50 years. Please confirm."

If the age of the secondary respondent (i.e. the second person in the question) is less than 15 and "Step son/daughter" is selected as the relationship, pop up a soft edit with the following text: "The category "Step son/daughter" has been selected. [Secondary respondent name] is less than 15 years old. Please confirm."

If the age of the secondary respondent (i.e. the second person in the question) is less than 18 and "Adopted son/daughter" is selected as the relationship, pop up a hard edit with the following text: "The category "Adopted son/daughter" cannot be selected. [Secondary respondent name] is less than 18 years old. Please return and correct."

RNC_Q2C:
If the age of the primary respondent (i.e. the first person in the question) and the age of the secondary respondent (i.e. the second person in the question) are more than 17 and "Foster brother/sister" is selected as the relationship, pop up a hard edit with the following text: "The category "Foster brother/sister" cannot be selected for household members more than 17 years old. Please return and correct."

Appendix 1

Invoked Question Blocks

Address Block

NUM — INTERVIEWER: Enter the civic number.
If necessary, ask: **(What is the civic number?)**

_____
(10 spaces)

If DK or R is entered, ask:
CONFNUM — INTERVIEWER: Do you wish to skip the remaining address fields?
1 Yes (Fill address fields with DK or R based on NUM and go to END_BLOCK)
2 No
(Refuse, Don't know are not allowed)

STREET — INTERVIEWER: Enter the street name.
If necessary, ask: **(What is the street name?)**

_____
(50 spaces)
(Refuse, Don't know are not allowed)

This is a mandatory field; something must be entered here before the interviewer can continue.

APT — INTERVIEWER: Enter the apartment number.
If necessary, ask: **(What is the apartment number?)**

_____
(10 spaces)

CITY — INTERVIEWER: Enter the city, town, village or municipality.
If necessary, ask: **(What is the city, town, village or municipality?)**

_____
(30 spaces)
(Refuse, Don't know are not allowed)

This is a mandatory field; something must be entered here before the interviewer can continue.

PC — INTERVIEWER: Enter only a Canadian postal code.
If necessary, ask: **(What is the postal code?)**

_____
(6 spaces)

If null, Refuse, Don't know, go to PROV

CONFPROV — INTERVIEWER: Confirm that the [province/territory] is [province or territory based on postal code].
If necessary, ask: **(So the [province/territory] is [province or territory based on postal code]?)**

1 Yes (Go to END_BLOCK)

2 No
(Refuse, Don't know are not allowed)

Assignment of province/territory based on first letter of postal code:

A	Newfoundland and Labrador	R	Manitoba
C	Prince Edward Island	S	Saskatchewan
B	Nova Scotia	T	Alberta
E	New Brunswick	V	British Columbia
G, H, J	Quebec		
K, L, M, N, P	Ontario	Y	Yukon

PROV INTERVIEWER: Select the province or territory.
If necessary, ask: **(What is the province or territory?)**

10	Newfoundland and Labrador	48	Alberta
11	Prince Edward Island	59	British Columbia
12	Nova Scotia	60	Yukon
13	New Brunswick	61	Northwest Territories
24	Quebec	62	Nunavut
35	Ontario	76	U.S.A.
46	Manitoba	77	Outside of Canada and U.S.A.
47	Saskatchewan		

(Refuse, Don't know are not allowed)

This is a mandatory field; something must be entered here before the interviewer can continue.

If 76 "U.S.A.", ask:
STATE INTERVIEWER: Select the state.
If necessary, ask: **(What is the state?)**

01	Alabama	27	Montana
02	Alaska	28	Nebraska
03	Arizona	29	Nevada
04	Arkansas	30	New Hampshire
05	California	31	New Jersey
06	Colorado	32	New Mexico
07	Connecticut	33	New York
08	Delaware	34	North Carolina
09	District of Columbia	35	North Dakota
10	Florida	36	Ohio
11	Georgia	37	Oklahoma
12	Hawaii	38	Oregon
13	Idaho	39	Pennsylvania
14	Illinois	40	Rhode Island
15	Indiana	41	South Carolina
16	Iowa	42	South Dakota
17	Kansas	43	Tennessee
18	Kentucky	44	Texas
19	Louisiana	45	Utah
20	Maine	46	Vermont
21	Maryland	47	Virginia
22	Massachusetts	48	Washington
23	Michigan	49	West Virginia
24	Minnesota	50	Wisconsin

25 Mississippi 51 Wyoming
26 Missouri
(Refuse, Don't know are not allowed)

This is a mandatory field; something must be entered here before the interviewer can continue.

ZIP INTERVIEWER: Enter only a US zip code.
If necessary, ask: **(What is the zip code?)**

_____
(12 spaces)

END_BLOCK

Edits for Address Block

PC
If the first character of the postal code is not valid, pop up a hard edit with the following text: "Invalid first letter for postal code. Please return and correct."

If fewer than three characters are entered for the postal code, pop up a hard edit with the following text: "Postal code must be 6 characters long. Please return and correct."

If the format of the first three characters of the postal code is not valid, pop up a hard edit with the following text: "Invalid format for postal code. Format must be X9X9X9. Please return and correct."

If fewer than six characters are entered for the postal code, pop up a soft edit with the following text: "Postal code must be 6 characters long. Please return and correct."

If the format of the postal code is not valid, pop up a soft edit with the following text: "Invalid format for postal code. Format must be X9X9X9. Please return and correct."

If the first digit of the postal code is "X", go to PROV (i.e. do NOT ask CONFPROV).

PROV
If the province selected in PROV does not agree with the first digit of the postal code, pop up a soft edit with the following text: "The postal code is not consistent with the province or territory. Please confirm."

If either "U.S.A." or "Outside Canada and U.S.A." is selected in PROV and a postal code has been entered, pop up a soft edit with the following text: "You have selected a location outside Canada. Remove postal code or select correct province or territory."

ZIP
If the zip code is not completely numeric, pop up a hard edit with the following text: "Invalid format for zip code. Format must be numeric. Please return and correct."

Date Block

DAY INTERVIEWER: Enter the day.
If necessary, ask: **(What is the day?)**

|_|_|

(MIN: 1) (MAX: 31)

MONTH — INTERVIEWER: Select the month.
If necessary, ask: **(What is the month?)**

01	January	07	July
02	February	08	August
03	March	09	September
04	April	10	October
05	May	11	November
06	June	12	December

YEAR — INTERVIEWER: Enter a four-digit year.
If necessary, ask: **(What is the year?)**

|_|_|_|_|

END_BLOCK

Edits for Date Block

MONTH
If an invalid day/month combination is entered (e.g., DAY = 30 and MONTH = 02), pop up a hard edit with the following text: "An impossible day/month combination has been entered. Please return and correct."

YEAR
If an invalid day/month/year combination is entered (e.g., DAY = 29 and MONTH = 02 and YEAR = 1999), pop up a hard edit with the following text: "An impossible day/month/year combination has been entered. Please return and correct."

North American Telephone Block

CODE — INTERVIEWER: Enter the area code.
If necessary, ask: **(What is the area code?)**
Enter "000" if no telephone.

|_|_|_|

If Refuse, Don't know is entered, go to TEL.

Valid area codes for Canada by province:

10	Newfoundland and Labrador	709
11	Prince Edward Island	902
12	Nova Scotia	902
13	New Brunswick	506

Edits for North American Telephone Block

CODE
If fewer than three characters are entered for the area code, pop-up a hard edit with the following text: "Area code must be 3 characters long. Please return and correct."

If the area code is not valid for Canada or the United States (and is not "000"), pop up a soft edit with the following text: "An invalid area code has been entered. Please confirm."

TEL
If fewer than seven characters are entered for the telephone number, pop-up a hard edit with the following text: "Telephone number must be 7 characters long. Please return and correct."

Thank You 1

TY1_R01 — **Thank you for your time.**
INTERVIEWER: Press <Enter> to continue.

(Refuse, Don't know are not allowed)

END_BLOCK
